law and keep the peace.

There is a considerable stir among the Secessionists of Louisville on account of General Fremont's proclamation placing Missouri under Martial Law. We condemn the proclamation and the language thereof. We are not cognizant of the condition of affairs in Missouri as those within its borders. The St. Louis Republican, a Democratic paper, approves the proclamation. We do not. We trust that Kentusky, and every other State, loyal to the Union, will disapprove such usurpation of authority. Let those who are in rebellion against the Government, who trample the Constitution under foot, and resist the laws, resert to such means. It is not in accordance with the letter or spirit of our institutions, nor in the heart of the people of Kentucky to approve the act. We are loyal to the Government, true to ourselves, and hopeful and earnest in our endeavors to keep Kentucky from again becoming the dark and bloody ground. Still, while we are for the Government and the enforcement of the laws, we condemn the Missouri proclamation because it too closely resembles the ediots of the despotism prevailing in the Seceded States. No man in Kentucky, who has the good of his country at heart, or who is true to the rages in the Southern part of the State, the position of Kentucky, in the present crisis, will be disturbed by the proclamations or pronunoismentoes of those without our bounds. THE COURIER'S WAR CORRESPONDENT .-Charley Kirk, who had a partial training in our office, now the war correspondent of the Courier, speaks out in church with perfect freedom. Charley always had an inclination that way.

The extraordinary mortality which has been from time to time reported in the Southern papers, receives his indorsement. Disease, resulting from a sudden change of life and habits, was to be expected. The wet season in Eastern Virginia is falling

upon them with all its terrible consequences. We have before heard of the ravages made by disease, chiefly through the correspondents of the Charleston (South Carolina) Courier. Other Southern papers have had similar reports.

Our iriend Charley Kirk, now the war oorrespondent of the Courier, has a letter in yesterday's edition of that paper fully confirming all that has been hereiofore reported in relation to the ravages of sickness in the Confederate camp.

His letter is dated "Camp Bartow, near Manassas, Tuesday, August 27," and in it

We have heard before through private letters to friends, whose boys have gone off, that they cannot hear from them. Not a Southern paper which does not belong to the Jeff. Davis & Co. administration that did not have complaints to make. The New Orleans True Delta, a few weeks after the fight at Manassas, published a letter from a widow asking the fate of her sons. It is a remarkable fact, and worthy of attention, that, notwithstanding all of these demands, an official list of the killed and wounded has never been published by the Confederate States, and that the only way for a wife or a mother, or a father to know whether the kinsman is dead or not is by visiting the battle field, and hunting him out by appeals to the captain of his company.

The sympathies of the Courier correspondent are warmly for the South. Doubtless he puts the very best possible face on the matter, but, putting all the facts together, and relying simply upon Secession evidence, it appears clear to us that the want of clothes, provisions and equipments; mismanagement in the Quartermasters' and Commissaries' departments; indifferent surgeons, and other defects of the Contederates combined, are decimating their army; and is a day of advance.

THE NASHVILLE ROAD .- We have hesitalision than not. We earnestly and sincerely desire to avoid anything in which the lives of citizens may be sacrificed, and we hope be taken to prevent it. The evil is getting beyond endurance. We heard yesterday, from a number of citizens, of repeated outrages upon the Nashville road. Citizens residing down near the Tennessee line, are interfered with by cowardly scoundrels who pretend to be Kentuckians. Among a number of incidents reported to us, was one in which a Union man was insulted in the county, now under command of Colonel with a dozen allies. In the excitement the

The fellow first said there was not time. The cars would leave too soon. Being pressed, he swore he would take all advantages, and would not leave his crowd.

These things are matters of daily occurrence on that road. Drunkenness and outrage make the road unfit for a lady to travel on. It ought to be stopped. We have asked, and still ask, of the leading Secession papers and the leading Secessionists to condemn and prevent such things. They can and cugit to do so. If a single drop of old Kentucky blood, or loyalty to the Union, courses in their veins, they ought to do so. If they do not, they will force the citizens of the State, by one act, to prevent all future interference by the short shrift

The third class to contain those over forty-five years of age, who may be called 'Home Guards;' they should be formed in companies and regiments, regularly drilled, even though arms cannot be furnished. Their organization will show their strength, and keep up their patriotic feelings. Now, when the Government calls for volunteers, every man will be drilled to a certain extent, and prepared for immediate active service, and we shall have no more complaints about raw recruits, but shall have a well-drilled army, ready for any emergency."

The "peace party," as the Secessionists called themselves, have fizzled out completely under the new cognomen. The alias did not avail them. The men who acted with them were in open rebellion against the Constitution and the laws of the country, and wanted "to be let alone" in that condition. The flimsy subterfuge was a splendid failure. There is a peace party in Kentucky. The loyal Union men of Kentucky are all in favor of peace and opposed to mcb law and rebellion. If the followers of Jeff. Davis will ground their arms and return to their allegiance they will be enrolled in the peace party, and will need no white banner to show their standing. All Union men are peace men in our Common-

Perhaps nowhere in Western Virginia has here been a viler nest of Secessionists than at Wayne Courthouse, the county town of the county lying on the Kentucky line. Eight of them answered to the call, running immedistely to the Courthouse, when they were taken prisoners. Among them, Hurston Spurlock, their chief, also, Jesse Spurlock and Stephen Strother, who are leaders among the rebels.

Capt. Smith dispatched a messenger for reinforcements on Sunday. Major Ralph Ormstead, with Capt. McFadden's company, went up as a reinforcement, arriving on Monday. Scouts were then sent out, and encountered the rebels about a mile from the Court House. Our oavalry heard the firing, and went 10 their assistance. When the rebels saw the cavalry they made a quick retreat. In the skirmish which took place our troops received no injury. Four rebels are supposed to be killed; wounded not

On Tuesday morning the rebels renewed the attack, and kept it up until five o'clock in the evening, when they endeavored to retake the town. Our boys, however, re-turned their fire so thick and fast that they were repulsed, and glad to retreat. In their retreat they encountered Lieut. Col. Calvin, who was advancing with supplies from Camp Pierpoint, and were again repulsed.

The Rev. John C. Johnson was one of the prisoners taken, and we here remark that ne has been one of the most violent in his efforts to incite this rebellion in our region, forgetting altogether that if he is a follower of his meek and lowly Master, his mission is one of peace. The officer who was in charge, having himself a high sense of the obligation which not only a gentleman, but especially one who professes to be a minister of the Gospel, should entertain, gave Johnson his liberty on his parole of honor, the conditions of which were that he should not leave the town. He, however, regardless of his honor or his professed religion, left the place, and is, no doubt, now with a violated oath, endeavoring to incite others to rebel lion. The Constitution of Kentucky requirthat the State shall be laid off into thirt eight Senatorial Districts, but does direct that these districts shall be merically designated. It does, however require that said districts shall contains nearly as may be, equal voting opulation, and have equal and uniform representation: and to secure and presenthese, it provides that an enumeration the qualified voters of the State, and apportionment of Senators and Represe tatives, shall be made every eight year But the means and mode prescribed the Constitution for preserving a gener equality in Senatorial representation, wi dways be productive of a tempora nequality. For, whenever any consider encies is made by an apportionment, ransfer of some counties from one cl of Senatorial districts to the other cla will be found unavoidable; disfranchise certain counties for two year and give to certain other counties dou representation in the Senate for the ear length of time, as will be apparent when table hereto annexed is examined. FAITHFUL MINISTERS OF HEALTH .- In examining the vessels at the various wharves we find among the curioeities of our commerce the brig Maranda, just in from Truxillo, with a cargo of Honduras Sarsaparilla for Dr. J. C Ayer & Co., of Lowell. So particular are this firm as to the articles used in compounding their various remedies, that they have this drug, like some others they consume, gathered for them by a skilful agent of their own in the tropical re gions of its growth. He informs us that there are many species of this plant, but two of which are really valuable in medi cine; the qualities of these are also affected by the time of gathering, modo of curing, etc., operations which in that region of unreliabe workmen imposes a heavy labor upon him. One of the inert varieties of Sar saparilla grows wild in our own foreste, while several others, nearly worthless, abound in Central and South America. The intelligent agent assured us that the virtues of this drug had never been fully told, and that the reason of the low esteem in which many held it is mainly due to the importation of such immense quantities of the worthless varieties. His accounts of his trips to Honduras, and his business excursions along the Gulf of Dulce, and the rivers of Montagua and Santiago, and among the adjacent mountains, were of intense interest. We can but commend and honor his employers for the faithfulness and energy with which they execute their trust as ministers to the public health, and we susnect that this course is at least one of the reasons why their medicines are held in such extraordinary favor throughout the civilized world .- New York City News. sel dl&wl

The fiery ordeal of public opinion is about the best and surest test of superiority or efficiency in anything. It is especially so with all inventions or discoveries. Money may bring a thing into temporary notoriety, but merit alone can make it retain the post of acceptance. This has been strikingly werified in the case of WRIGHT'S REJU-VENATING ELIXIR. It has passed through the ordeal, and established itself in every region where introduced, solely from its intrinsic merit; it pretends to nothing but what it can and does perform as a tonic, alterative, diuretic, restorative and healthgiving cordial; for, though medicinal in effect, it is not so in taste. We say try it!

Immediately after the expiration of the term of forty days from the date of the foregoing proclamation, it shall be the duty of the several district attorney, marshalls and other officers of the Confederate States, to make complaint against any aliens or alien enemies coming within the purview of the act aforesaid, to the end that the several courts of the Confederate States, and each State having jurisdiction, may order the removal of such aliens or alien enemies beyond the territory of the Cenfederate

The Marshals of the Confederate States are hereby directed to apprehend all aliens against whom complaints may be made under said law, and to hold them in strict custody until the final order of the court, taking special care that such aliens obtain no information that could possibly be made useful to the enemy.

DEPENSELESS CONDITION OF THE SOUTH-EEN COAST .- The Augusta (Ga.) Chronicle and Sentinel gives the government a hint in the following reasons addressed to tho Confederate Congress for organizing a coast

1. Because there are many places where the enemy might commit raids and do us damage before we could organize and drive them off. Beaufort district, opposite to Savannah, has several fine ports and inlets navigable for large vessels wholly unprotected. (See United States Coast Survey.) This district has five black to one white inhabitant. Several inle's on our coast, which our enemies know like a book, from surveys in their possession, are equally

GEN. PATTERSON A COWARD AND A TRAITOR.—Captain W. W. H. Davis, of Bucks county, Pa., who commanded a company of three mouths' men under General Patterson, made a speech last week, at a Union meeting in that county, in which he gave an account of his campaign on the upper Potomac, under General Patterson, proving conclusively that he was fully able have detained Johnston and his rebels at Winchester, as he had been ordered and expected to do, and having failed to do this. through cowardice or incompetency, the great battle of Manassas was lost. Davis stated that Gen. Patterson declared in the presence of his men, that he was afraid to approach Johnston's camp at Winchester, though he had over 17,000 highly efficient men at his command. He considsidered Patterson entirely responsible for the defeat of the Federal army. The trnth is thus getting out, little by little. It comes out slowly, but none the less certainly.

The following remarkable circum. stance is related: Six of our wounded men lived nine days on the battle field before they were accidentally discovered by a love to our whole country, and not from Union man, traveling ever the field, who hate to our brethren of the South, and that some of his neighbors assisting in the humane work.
